TOKYO UNDERGROUND

• SUMMARY OF THE PREVIOUS VOLUME •

High school fighting champion, Asagi Rumina, took in Ruri and her guardian Chelsea, who had both escaped from the Underground. The secret organization of the Underground, the Company, came to retrieve Ruri, the "Priestess of Life" who was the key to their plans.

The attack of the fire-ability user of the Supei, Seki, defeated Rumina. This in turn activated Ruri's power of Revival. The power of wind was awakened within the revived Rumina. The water users Tailor and Pai Ron then attacked, and Ruri was taken back underground.

Rumina's grandfather returned from his trip, and Rumina, Ginosuke, and Chelsea's training began. Once they had cleared the last trial, Rumina and the others traveled to the Underground to rescue Ruri.

There is a railroad not in use anymore that stretches through the darkness ending deep under the ground of Tokyo, Japan's capital. Beyond there lies a sealed world with no sun.

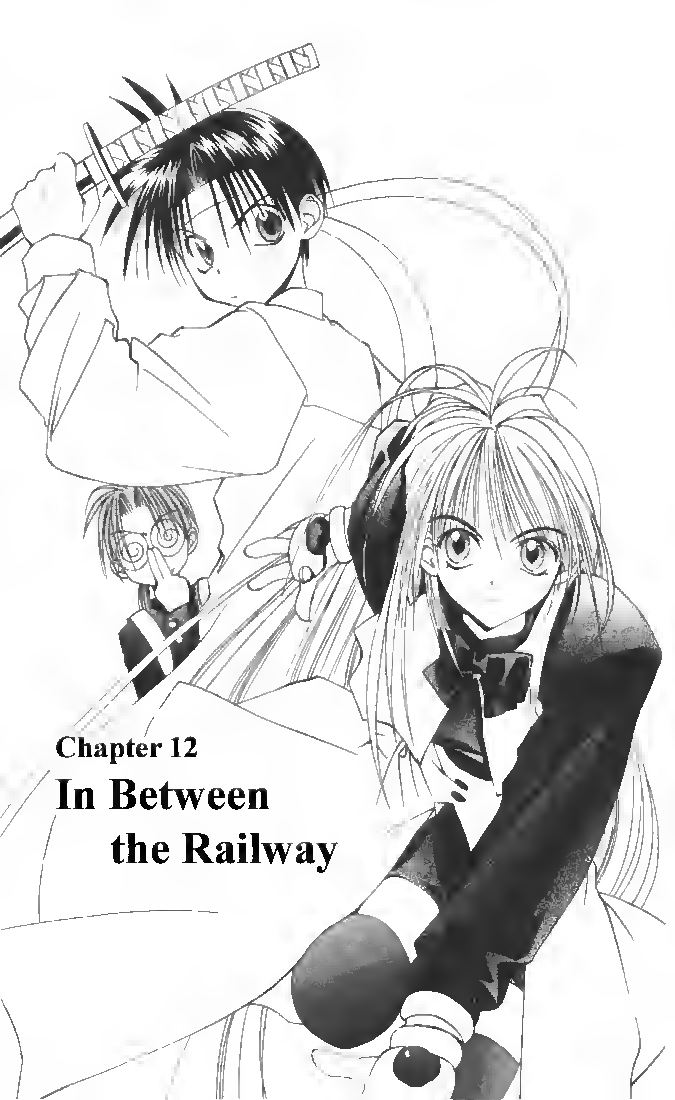
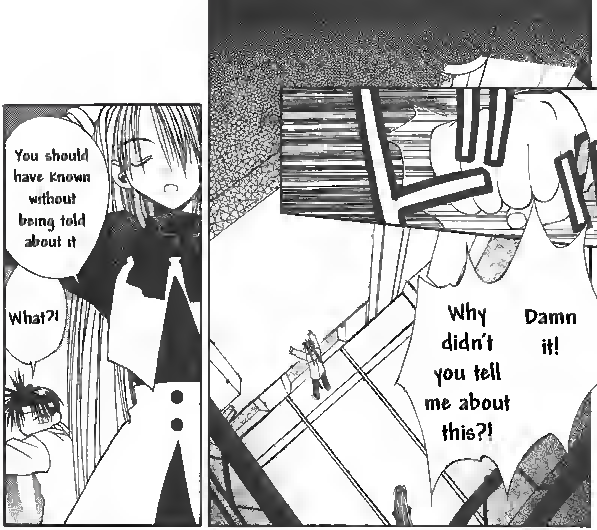
Let's go!
However...
Why is this railway so LONG?

!
!...
There's no way out?
Yup!

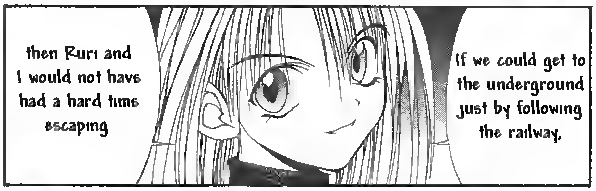


Chapter 12

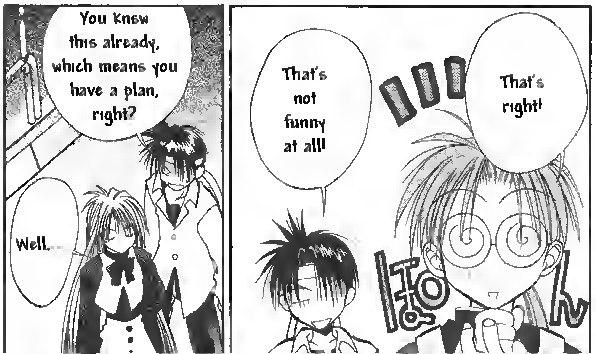
In Between the Railway



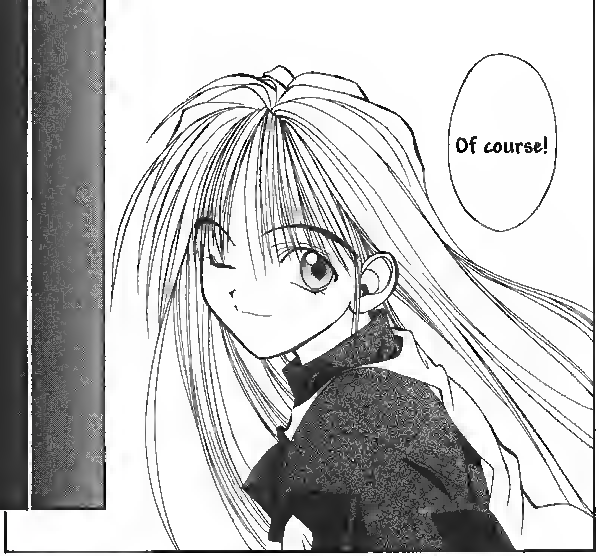
You should have known without being told about it
What?!
Why didn't you tell me about this?!
Damn it!



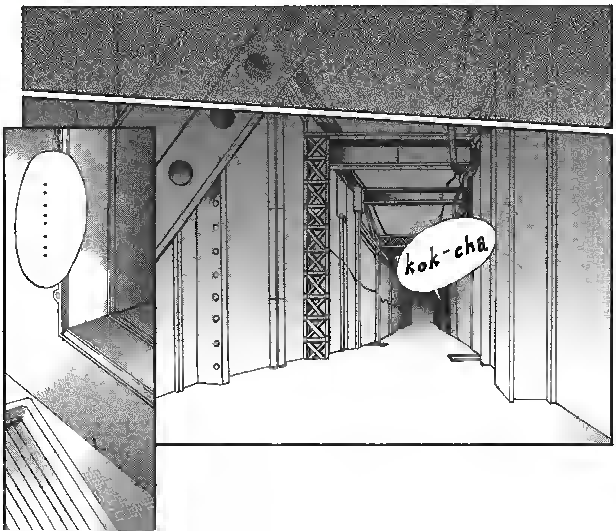
then Ruri and I would not have had a hard time escaping
If we could get to the underground just by following the railway.



You knew this already, which means you have a plan, right?
Well...
That's not funny at all!
That's right!
Hmm



Of course!



kok-cha
.....

It's impossible to say directly.
Ahh?
Alright!!! We'll be going directly towards Ruri at this point!
...you mean there's a secret passage?
It's impossible for the people living there to know anything about the Underground.
It's fine that we'd go through the secret passage.
but the Underground is a lot more complicated than you might think.
And you say you don't know how they came from the Company
Although you escaped and came.
You can go back alone if you don't like it.
Besides, it seems like Ari's nest is expanding

No!!
Bastard!!
You just said something like "leave it all to me," didn't you?
I've never said anything like that.
They're both rather energetic.
Indeed.
Light?
It's a secret passage, seems like it could lead us back to the surface.
No...

That light is....

This is...
the Under-ground...?!
And it's the world that Ruri was in...
Tokyo's... There's room this big under our feet...

Finally
I get back to this light again.
What is the purpose of such a large space?
Who knows?

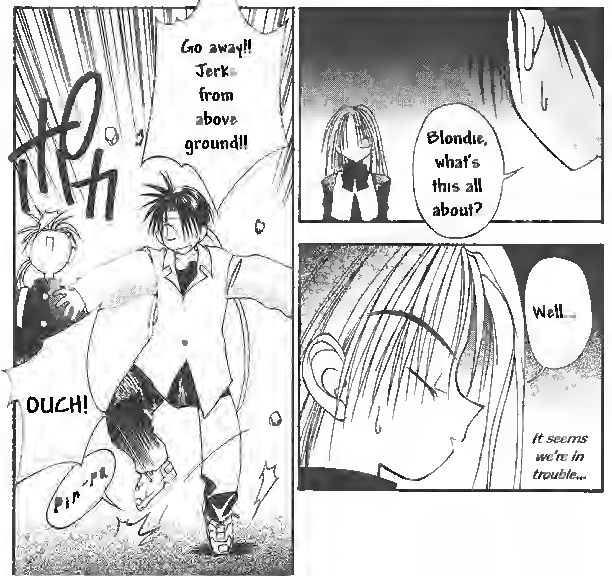
Hey!
What are you doing in the village field?
Village?
Field?

Awe-some
Though it's under-ground it's a village
It's like a movie.

はぁ?
You guys are from above!
It's said the people from above are bad! Don't enter the village!
Yes?

This onee-chan is wearing a company uniform,
but you guys are dressed strangely, you must be from above!!
Me too?
Na

We came here to get rid of the Company!
How can you say that we are the bad guys?

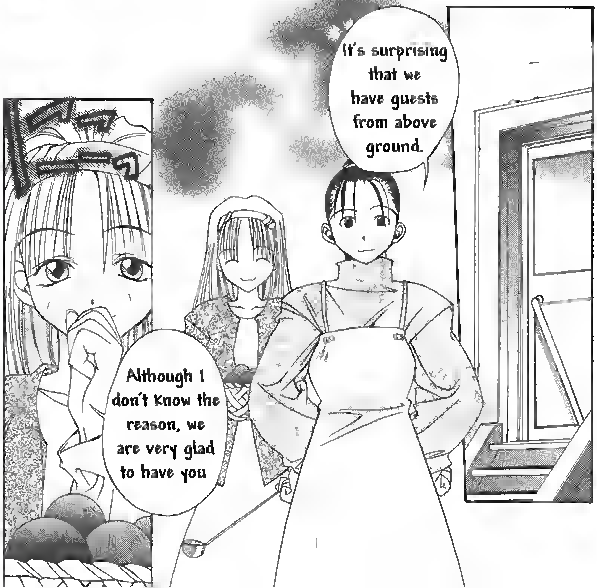


Go away!! Jerk from above ground!!
OUCH!
Blondie, what's this all about?
Well...
It seems we're in trouble...

You will hurt someone if you continue!
ポコ
OUCH!
You little devil! Don't think I wouldn't dare to fight back!
Oh! He's coming!
Run!
Damn...
it...

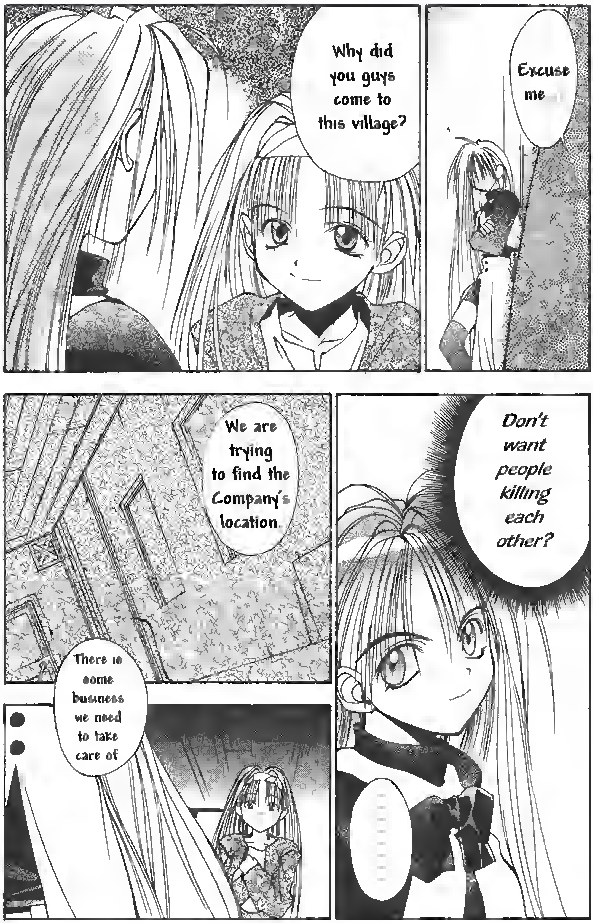
Chelsea the traitor...
and the wind-using boy
So...
They come at last.
You need to act quick
Hmm...
I heard both Seki and Tailor were defeated by him.
No need to rush.
Even I can't fight against two.
If I can defeat him, I can show the others how powerful I am.

When the time comes, I will make my move.
We will wait until they are separated.

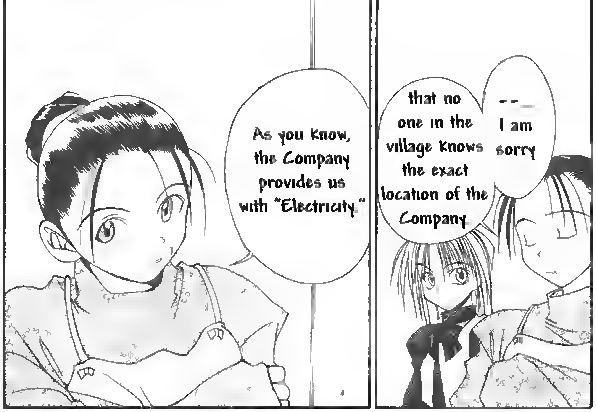


It's surprising that we have guests from above ground.
Although I don't know the reason, we are very glad to have you

They think the Company are righteous to resist the people from above ground
Please forgive those kids...
.....
This is the vegetable from the field.
Thanks!
I know that's only a small portion of the people
and not all those from above are bad
Even though the people from above separated us
I don't want people killing each other
Besides, I don't agree with the Company taking revenge

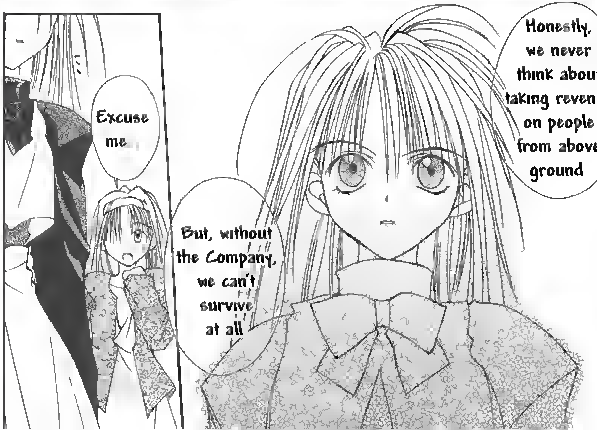


Why did you guys come to this village?
Excuse me
We are trying to find the Company's location.
Don't want people killing each other?
There is some business we need to take care of
.....



As you know, the Company provides us with "Electricity."
that no one in the village knows the exact location of the Company.
-_-
I am sorry

And we can farm and have food.
The village exists because of the light provided by "Electricity."



Excuse me.
But, without the Company, we can't survive at all.
Honestly, we never think about taking revenge on people from above ground

I think he's playing with the kids
Where is the other guy?
Those kids are fast!!
They are so annoying. It reminds of those guys in the park.

You little jerks...
Nah, nah, nah, nah, nah! You can't catch us! Fool!
I'm just waiting for you to get closer! Fools!
Let me GO!

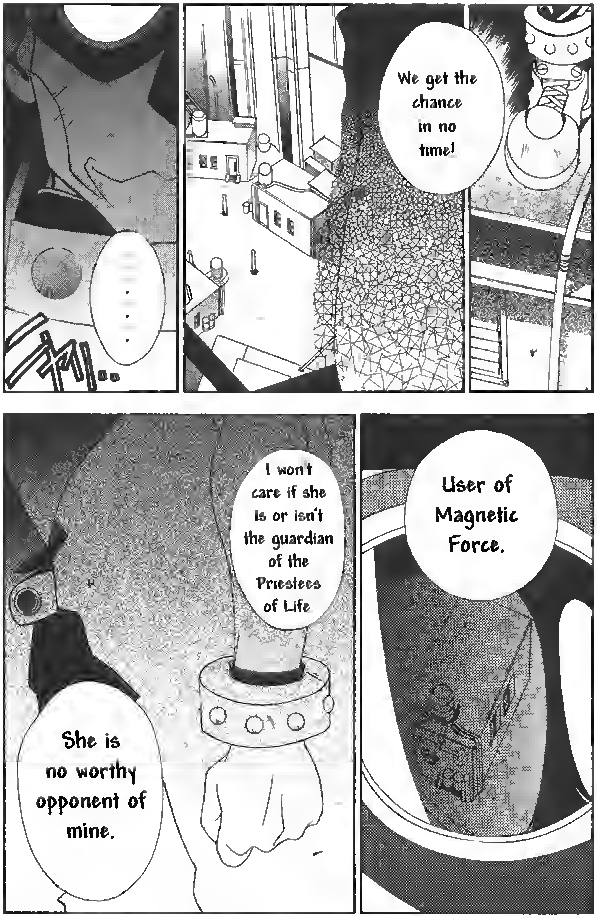
パカッ
This is a punishment from a grown-up
Not a grown-up
Big brother, you are so careless!
Hey you!

Not everyone from above ground are bad guys

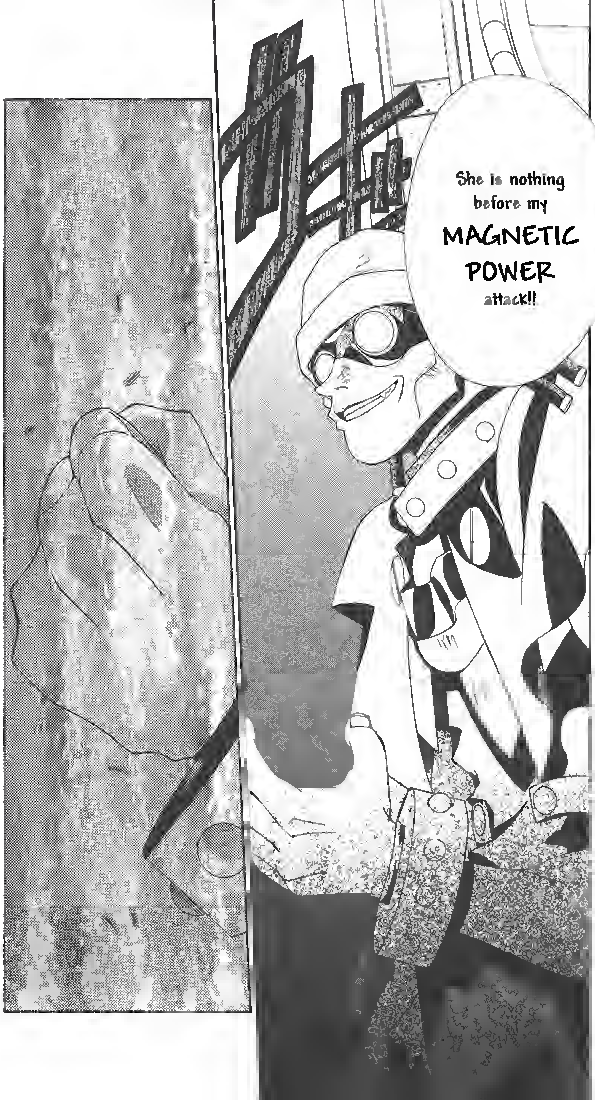
. . . . . .

Well...
If they had a chance to go aboveground, they would understand.

Well... surprise, surprise.



We get the chance in no time!
I won't care if she is or isn't the guardian of the Priestess of Life.
She is no worthy opponent of mine.
User of Magnetic Force.



She is nothing before my MAGNETIC POWER attack!!

Chapter 13 Magnetic User Rou

Don't know where the company is at?

In this world with steel and soil...
Actually no-one here has anything against the people up there.
But without the company we can't live either.
Vibrations?!
!?

Hey..
Traitor.

Hear you escaped with the priestess to above ground, why are you back?

Take it easy on this guy...
I'll find out the location of the company through him!
It's him...
That is...

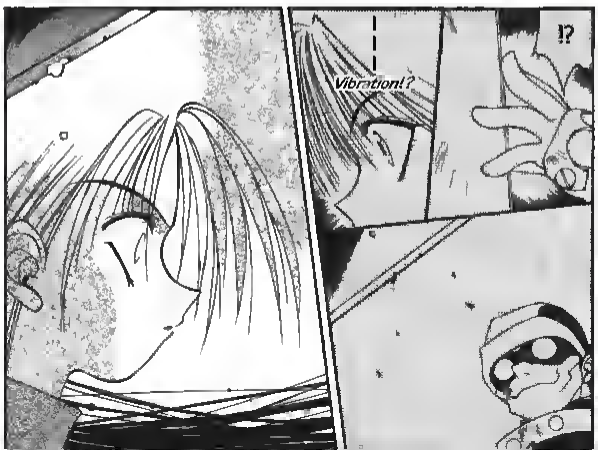
Why did the company send soldiers here?
!?
He's making the heavy steel beam float in mid-air!?
Is there another gravity user besides me in the company?
Haha...

HA!
……!!
whoosh

Whaaa!
If you move away, the village will be destroyed!

Idiot, think you can get away?
!!
Ah!

!?
But what can I do? He has the power to move heavy beams.
Steel?
Have to finish this battle before it gets worse.



Vibration!?
!?

Where are you looking?
Think I can only move steel beams?

How did my super punch feel?
How's that?
Haha
Hmph
..

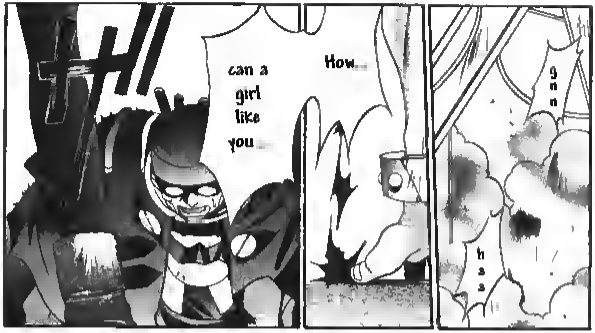
Think you can beat me with that kiddy trick of yours?
Don't make me laugh!
What's so funny?
Got hit in a vital spot?
You're joking!
SHUT UP!!

"Magnetic User"!
!
You can control magnetic fields that's how you move the beam
!
I almost forgot Your ability, like my gravity, has special characteristics!

You still don't see it?
So what if you know!
!!
The heavier something is, the more it can be affected by gravity
So no matter how big your magnetic field or how heavy the beam,
Only a little increase in gravity, would massively increase the weight
And it will fall to the ground

You punch like a girl
Then let this.
If so...
A real punch should be.

LIKE
THIS!!



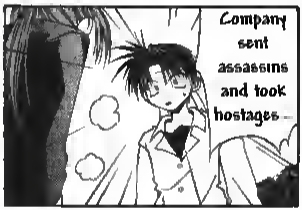
How...
can a girl like you...
Gan
haa

You showed up right on time.
I was just looking for the company's location.
.....
he he he
.....
Hmpf
What are you laughing at?

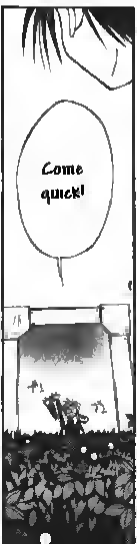
Hostage?!
You are the idiot here, I'm 100% victorious now!

!!
Rumina, where did you run off to at a time like this?!
ha.
ha.

You better give up now.
Nowhere to run now!
Grabs

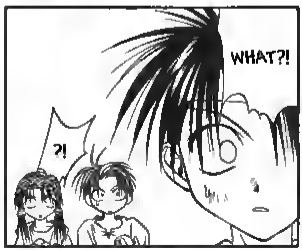


Company sent assassins and took hostages

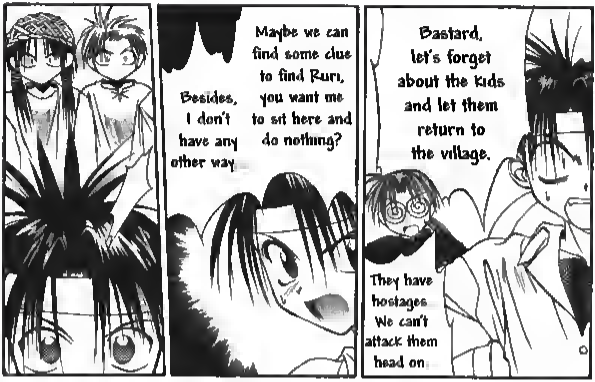


Come quick!

HEY!



WHAT?!
?!



Bastard, let's forget about the kids and let them return to the village.
They have hostages. We can't attack them head on.
Maybe we can find some clue to find Ruri, you want me to sit here and do nothing?
Besides, I don't have any other way.

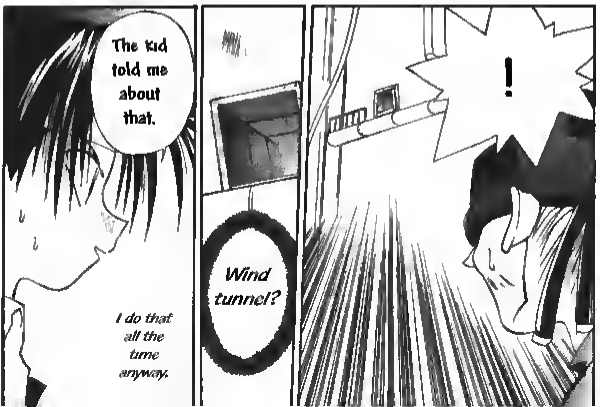
.....
?

One more hit...
Almost dead.
I'll relieve you of your pain!

SHUT UP!!
!!!
That's low...
Hitting a girl...
Don't forget why you guys can live in this world!
If not for the company, you guys would be dead long ago
Shut up if you don't want to end up like her
You are the one that needs to shut up!
What?

I am the Invincible King...
.....!!
You...
Who the hell are you?

Asagi Rumina!
Whaa
You... you are the wind user...
Where did you come from?



The kid told me about that.
I do that all the time anyway.
Wind tunnel?
!

Hmph
In... Damn...
Inpei...
Ha...
Ha
ha
ha
.....

Even so, I'll still make you...
Only you left.
Mister,
Time for you to leave.

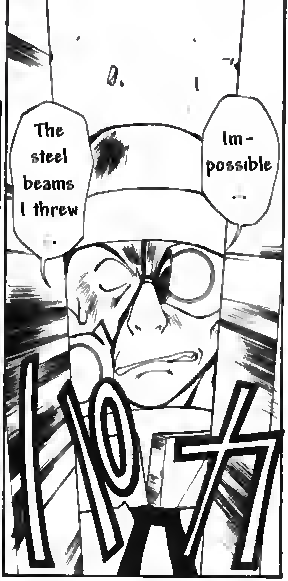
Chapter 14
Isuzu's Feelings

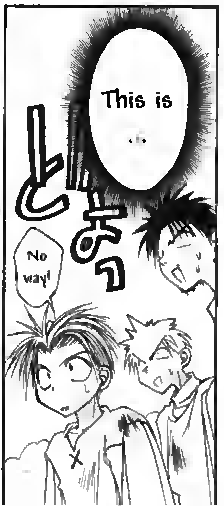
How's that?
How could it...
!

Were cut in half?



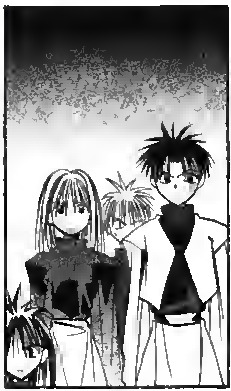
The steel beams I threw
Im-possible...

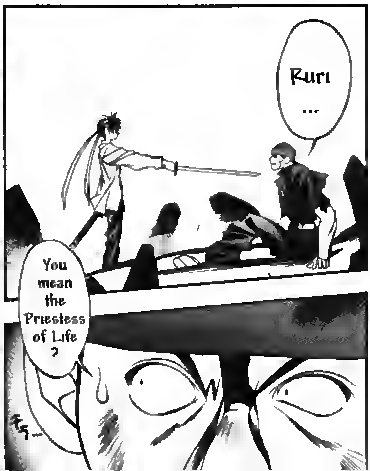
Power of the wind...
Say it!



This is...
No way!

Where is Ruri?





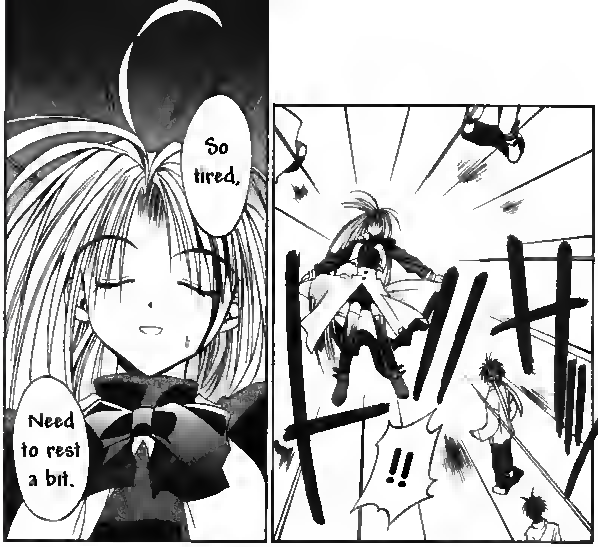
Ruri ...
You mean the Priestess of Life ?
Ki...

All right !
Hmm... He has the better hand now
Besides... this wasn't the order of the Company
Go back to the entrance where you first came from.
Keep on going forward and you'll see the white line on the ground
Keep following the white line and you'll get there.
The Priestess should be around there,
but I don't know where exactly

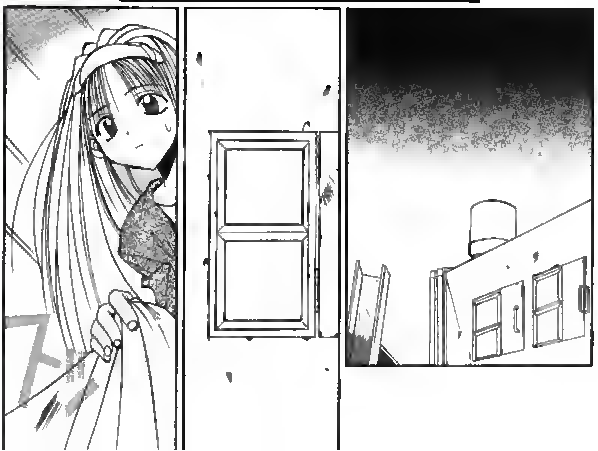
I... I've already told you the location of the Company.
Is that all?
Then I'll be on my way
Hold on!
Good thing you knew the location of the Company.
I'd like to thank you.

You hit really hard,
I almost couldn't stand back up
I'm sorry about before,
I under-estimated you
So ...
I'll give it all back!

Wha-aaa-aaa....
Hmph...
My god...
You're very energetic...



So tired.
Need to rest a bit.
!!



No can do
I've done my best for her.
It's best to let her rest for 2-3 days
So we already know where the Company is, it's only 2-3 days
Big brother

I'M SORRY!
I'VE REALLY MISUNDER-STOOD YOU SURFACE DWELLERS!
What?

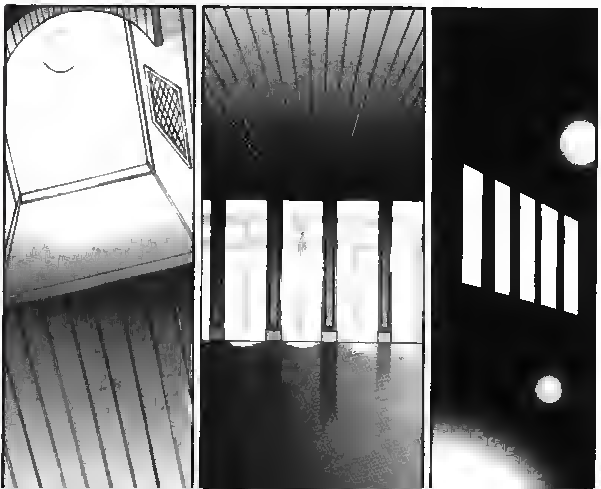
We didn't know the Company was such a horrible organization!
They seem to be misunder-standing...
But Chelsea also belongs to the Company
Actually I just wanted to tell you ...

Doesn't matter if it's above or under ground,
Don't let the Company blind yourselves
Let's finish what you started earlier!
.....
Don't
Sigh

Just now, besides asking Rumina for help there's nothing I can do...
...!!
The discovery of the century?

I got it!
.....

Let me look around, maybe I can find something useful...

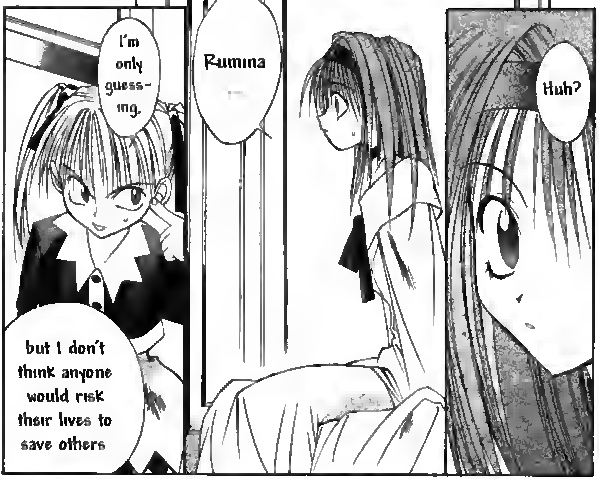


You are ...
Who are you?
Faints!
Hehe...

Big sister,
you forget I almost killed you at the park?
That time ...
!!
...

You are that girl?
Remember now?
....

That time the wind user saved you.
But don't worry about those two people
ズ!!
Because Pai Ron wanted to capture you, they weren't hurt
But
If they try to come and retake you, then that's another story



I'm only guessing.
Rumina
Huh?
but I don't think anyone would risk their lives to save others

Big sister, you look really pale!
I'll know if they ever get here, I'll be sure to tell you

Just so I've became your new guard, and you are living in such an awesome room.
I thought since I'm taking care of you, I should come and say hi
Ah
What is your name?
Me?

I'm Ruri,

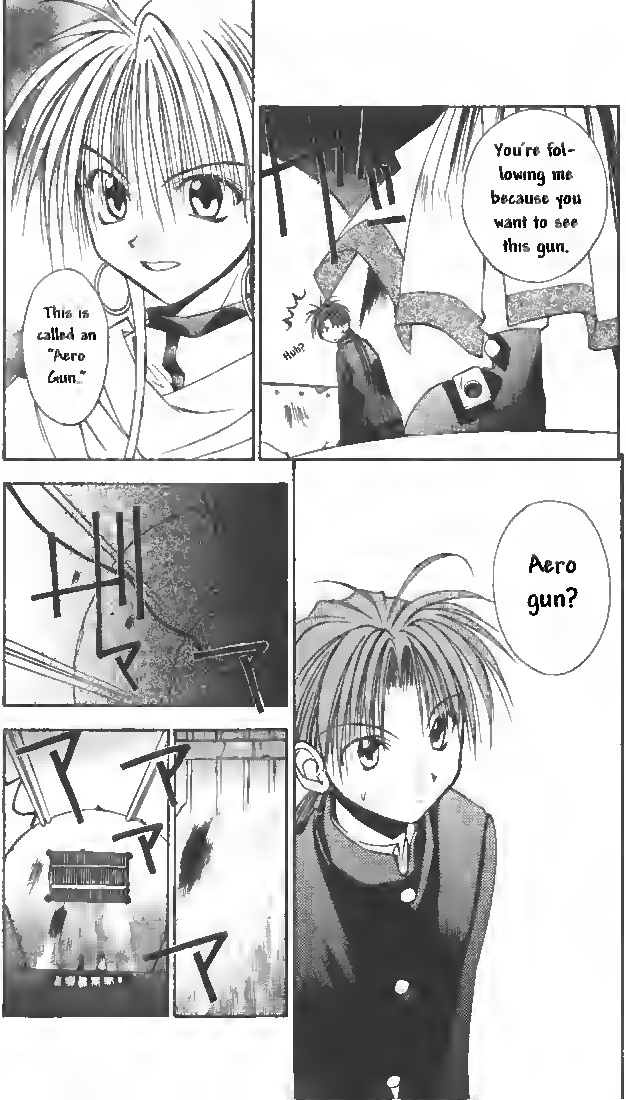
Hm.

I can see your head.

Still there?
パタン
キュ
I've never seen him around here.
Then why are the snipers—

That strange gun...
I can't see too well without my glasses
That tiny gun has enough attack power to back the snipers away?
If I have that...
I see.

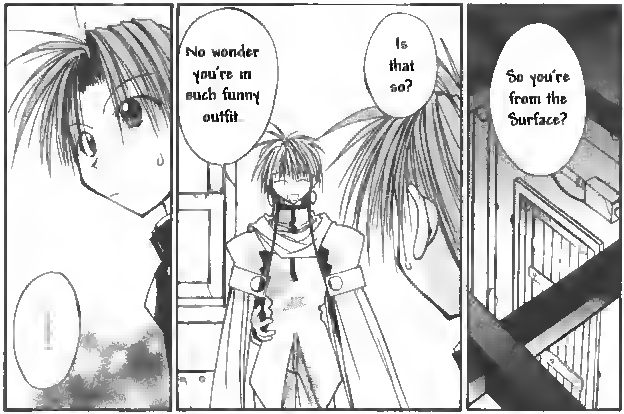


This is called an "Aero Gun."
You're following me because you want to see this gun.
Huh?
Aero gun?

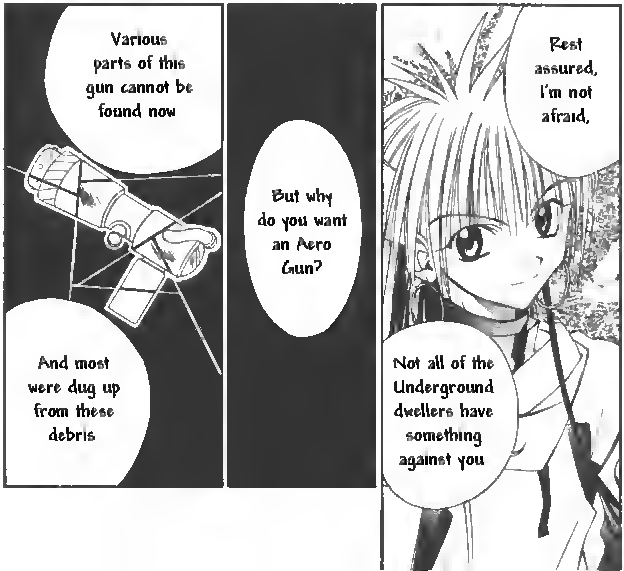
ヤアアア
WAH!

The waterfall...
This is a remain of the Underground scientists.
セニス
You just need to put in bullets of all elements, such as Fire, Water, Ice and Thunder.
Even those who don't have high potential can control powers of these elements
I really hate to see those pawns from the company picking on the villagers.
So I attacked them as an experiment.

PLEASE TEACH ME HOW TO MAKE AN AERO GUN!
That's it!
Teach you how to...
make an Aero Gun?



!
No wonder you're in such funny outfit
Is that so?
So you're from the Surface?



Various parts of this gun cannot be found now
And most were dug up from these debris
But why do you want an Aero Gun?
Rest assured, I'm not afraid,
Not all of the Underground dwellers have something against you

I want to have that, and fight alongside my friends!
For the sake of protecting those important to me, and to help out my friends,
Even still...
Alright! It's fine by me if you don't intend to bring it back to the Surface.
Here are details to the machine parts.
!

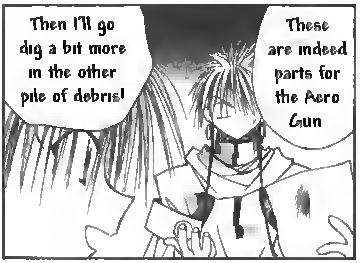
He's gone already
Next you need to go to the debris...
To protect those important to him?
To protect those important to me, and to fight along side my friends...

When the Company's recruiters came to the village in the name of "Elemental Users Hunt" ...
He's very much like me long ago ...

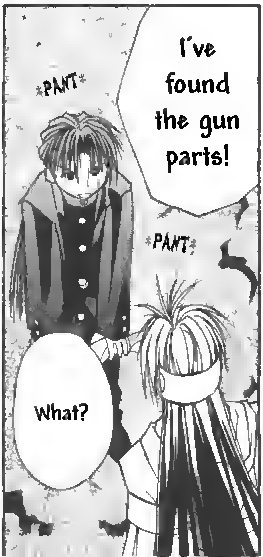
I crave power
I want to have the power to protect my beloved ones!
I was power-less
Witnessing my beloved ones taken away to a faraway place.
If only I had those powers
But finally I realized that alone, I am no opponent of the Company ....
Therefore, in order to attain power, I continued to put in all my effort.

TEACHER!
Teacher?
カミュ

Let me take a look...



These are indeed parts for the Aero Gun
Then I'll go dig a bit more in the other pile of debris!



I've found the gun parts!
PANT

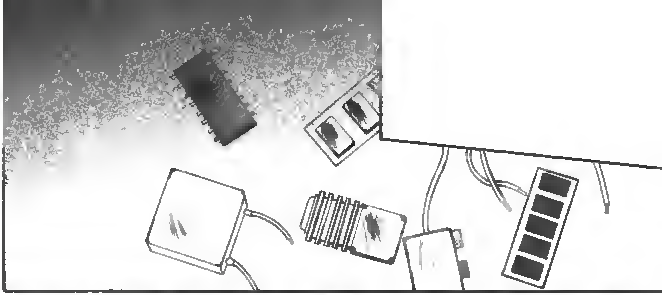
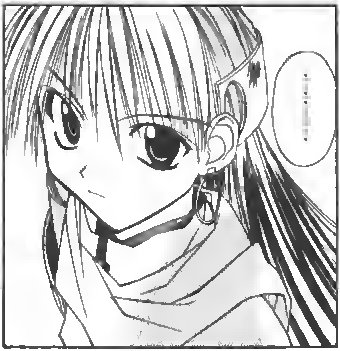
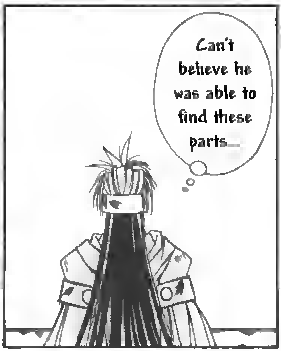
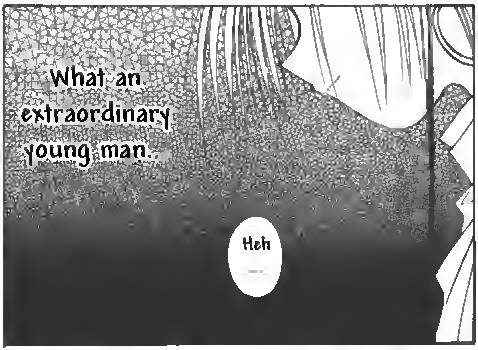
What?







Can't believe he was able to find these parts...



What an extraordinary young man.
Heh...

Phew

You look like you're doing some hard work
I'll lend you a hand!

NOTE: PILE OF STUFF

You can confirm its power on your own.
This is the best Aero Gun I've made thus far.

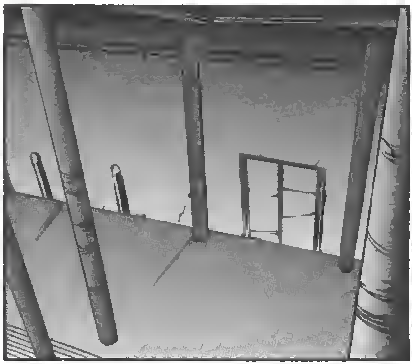
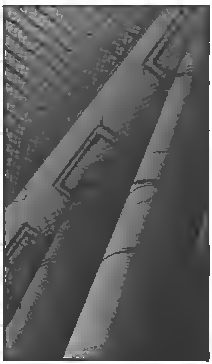
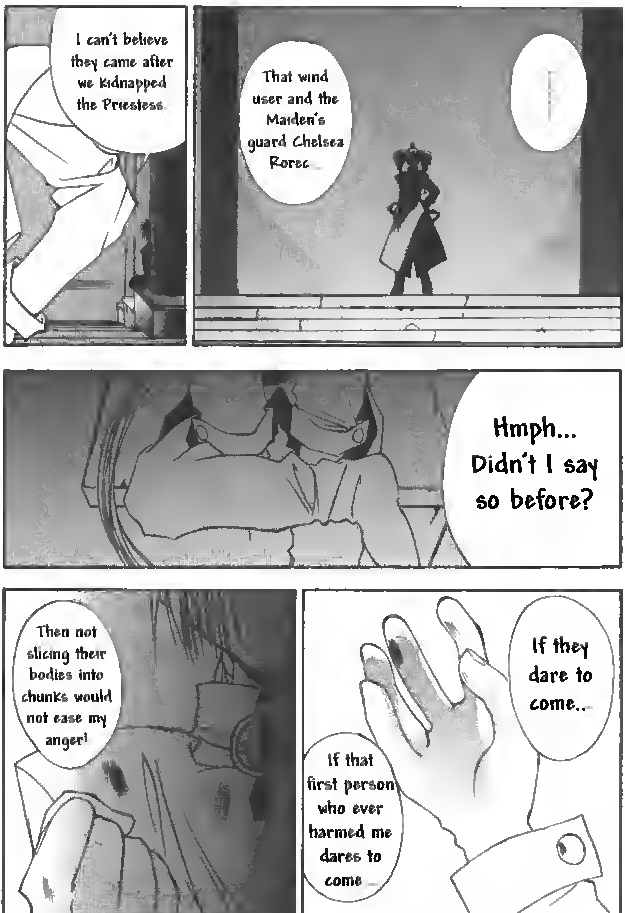
Please try not to use this gun as much as possible
Gunosuke
Yes







I can't believe they came after we kidnapped the Priestess.
That wind user and the Maiden's guard Chelsea Rorec...
Hmph... Didn't I say so before?
Then not slicing their bodies into chunks would not ease my anger!
If they dare to come...
If that first person who ever harmed me dares to come...

Chapter 16 - Underground Hole.

Seems that the houses in the village are pretty much done fixing

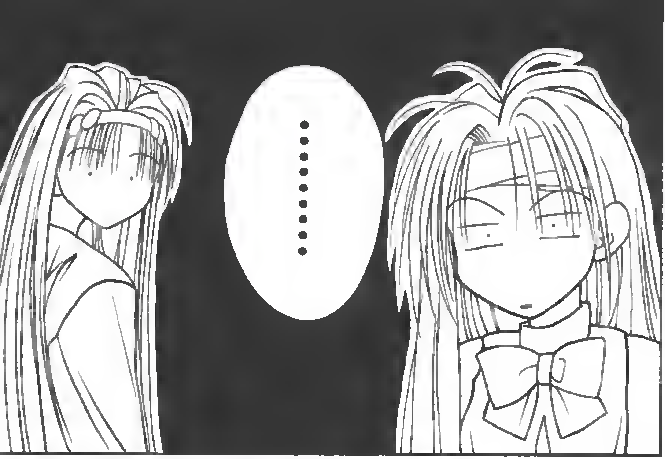
That's great.
Is that so...
What ....?
Heh.. so rare do I see you with such an expression.

I heard you were afraid to attack because you feared hurting the hostage.
Hmph!
Anyone would have done the same!
But it's good that you had no serious injury.
Big Sis from the Company!

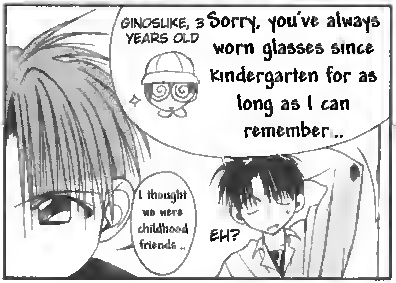
Please have some fresh veggies from the field!

This is to express our gratitude
Thanks
Oh yeah, where's Ginosuke gone?
*sfx knock on door

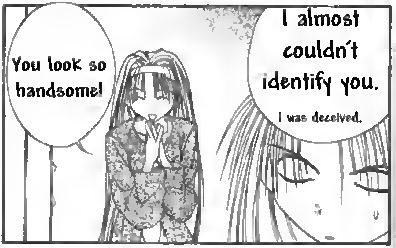
Hey...
Rumina.



.....



GINOSUKE, 3 YEARS OLD
Sorry, you've always worn glasses since kindergarten for as long as I can remember..
I thought we were childhood friends..
EH?



You look so handsome!
I almost couldn't identify you.
I was deceived.

Who are you?
I'm Ginosuke!

No...
You're hurt?
I can't tell her that I hurt myself with my own Aero Gun
I can't explain it all in one sitting...
These four bullets can individually store some powers.
This is...
Bullets for the Aero Gun

I picked this up when you were chased by the snipers
Here you go, I fixed it.
And another thing...
These are "Ice" and "Fire" which I got from the villagers.
And the other two are empty.
You can only use these once so you must be careful about using them
Hehe..
Big Sis, we brought you fresh veggies!
Let me rest a bit longer!
.....
Well it's not bad like this either!
I find security when I have my glasses on.

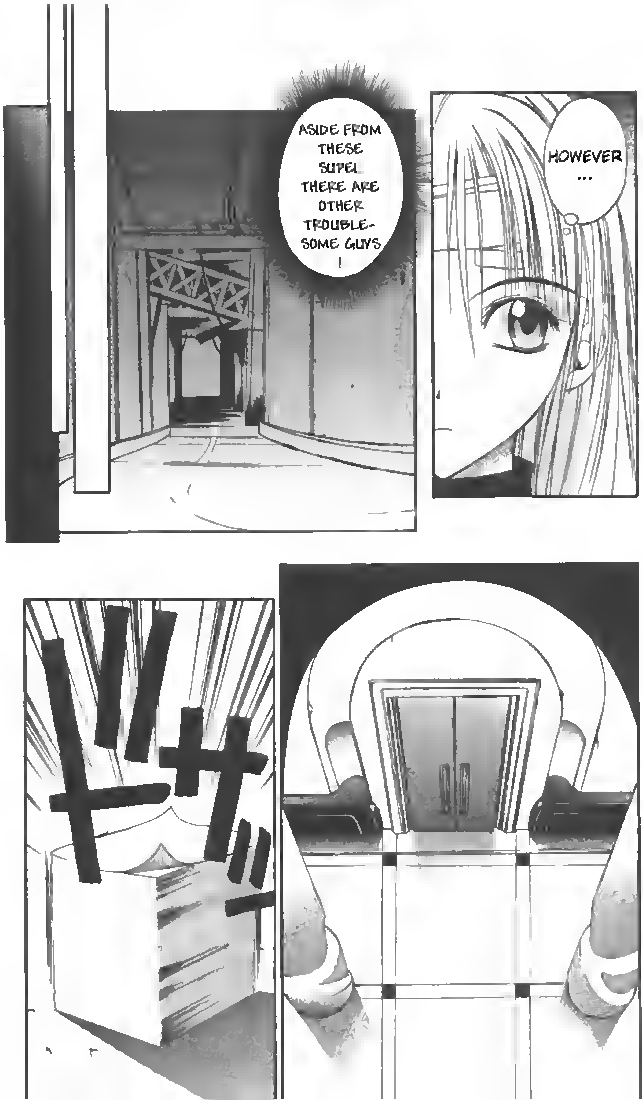
Let's go!
Right, Blondie?
Sorry to have troubled you so long
You could stay a few more days..
We'll come back as soon as we take care of some business

Of course!

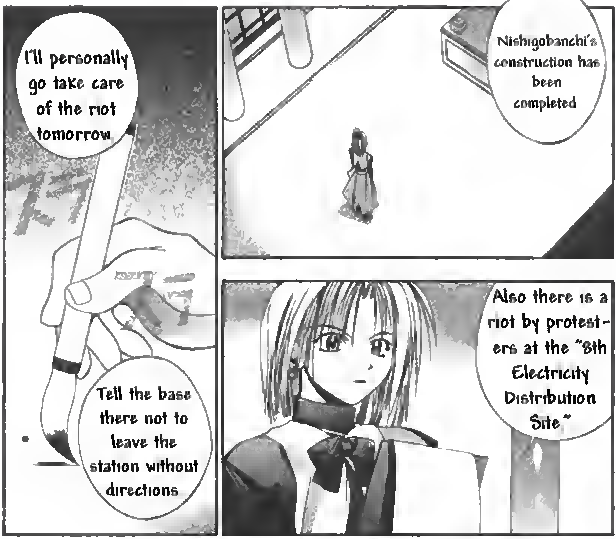
Found it...
We can get to the Company if we follow this white line.
It's a white line!

Don't look down on those Supers ...
If you're not careful
But don't let your guards off yet. The enemy should have noticed the chaos in the village
I know, they'll send killers after us again, right?
They are all strong people who possess great powers, and were militarily trained by the Company
And there's also one thing that you might have mistaken...

Wha... how do you know?
Just think about it.
What would happen to us Undergrounders if we caused a big commotion above ground?
Seki, Tailor, and that girl,
they weren't serious when they fought you.
Plus they all see you as a normal person.
Then ...
What am I to have risked my life trying to fight them...?
I EVEN DIED ONCE!
That I'm unsure of
STRAIGHT-FORWARD



ASIDE FROM THESE SUPER THERE ARE OTHER TROUBLE-SOME GUYS !
HOWEVER ...



I'll personally go take care of the riot tomorrow
Tell the base there not to leave the station without directions
Nishigobanchi's construction has been completed
Also there is a riot by protesters at the "8th Electricity Distribution Site"

Pai-Ron...
Kasagami-sama...
Aren't you busy looking for the Dragon"? How did you find time to drop by?

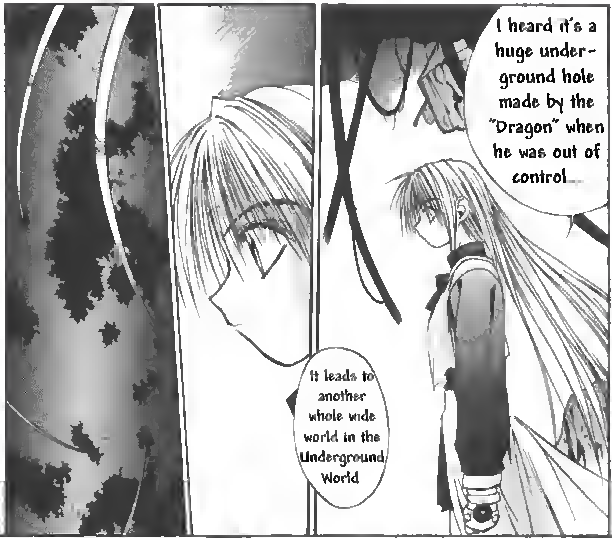
After a long-time investigation I finally located the approximate location where the Dragon was sealed.
I had orders to find the "Dragon",
No.
I'm busy looking?
Dammit!
Next I'm going to search in the Underground Hole

If you've got the energy to whine, then hang on a bit longer!
What'd you say?
We walked for so long, but why do I still see the same surroundings!?
I don't want to walk anymore
Eh?

.....
Rumina, Chelsea!
Come quick!
What?

What the hell is this?

There's another layer of ground...
Under-ground?
It's the Under-ground Hole.
U... under-ground hole?
Yeah!



I heard it's a huge underground hole made by the "Dragon" when he was out of control...
It leads to another whole wide world in the Underground World

"Dragon"
How scary...

In this dark, enclosed world, us humans...
Need sunlight in order to survive.
But the under-ground hole...
Looks so bright, and foresty just like the Surface
Everyone's like those in that village...
But not all are the same.
Therefore...
The Company uses the "Electricity Distribu-tion" that runs this.
And successfully controls the under-ground world

There are many who oppose the way the Company functions.
The Company's army was created in order to crush those people.
Of course, that's on top of keeping the society in order.

That's an excellent explanation!
!!
This attack would be...

You've guessed?
Thus we put in a lot of effort for the stability of the Underground World
Rorec.
Right?

I didn't think we would meet again so...
Sharuma...
Welcome to the Under-ground World.
You...

Now...
You are...

It's payback time!
